RVA01	Matt foil blockable	Low	Yes	Yes
RVA05	Optically bright gloss	High	No	Yes
RVA07	UV primer	High	Yes	Yes
RVA14	Gloss foil blockable	High	Yes	Yes
RVA15	Laminating adhesive	n/a	n/a	n/a
RVA16	Cold foil adhesive	n/a	n/a	n/a
RVA17	High slip gloss	High	No	No
RVA18	General purpose matt	Low	No	No

Pre-Production Testing

The UVivid Adhesives and Varnishes are formulated for a range of applications and with various substrates. It is strongly recommended that all substrates be tested before use in a commercial situation. Corona treatment of substrates may be required for optimum adhesion with some varnishes or adhesives. Similar substrates can vary between manufacturers and between batches from the same manufacturer. Certain synthetics may be impregnated with lubricants which may migrate and impair adhesion or the effectiveness of the varnish or adhesive.

The end-user must determine suitability of the product for its intended use prior to production.

For details of Storage, Shelf Life, Safety and Handling and Environmental information, please refer to the individual Product Information Sheet.

The information and recommendations contained in this Product Information sheet, as well as technical advice otherwise given by representatives of our Company, whether verbally or in writing, are based on our present knowledge and believed to be accurate. However, no guarantee regarding their accuracy is given as we cannot cover or anticipate every possible application of our products and because manufacturing methods, printing stocks and other materials vary. For the same reason our products are sold without warranty and on condition that users shall make their own tests to satisfy themselves that they will meet fully their particular requirements. Our policy of continuous product improvement might make some of the information contained in this Product Information sheet out of date and users are requested to ensure that they follow current recommendations.
