

Sericol/Cherlyn Agile Radiant™

COLOUR MATCHING CABINETS

It is a well-known fact that the human eye's perception of colour is greatly influenced by lighting conditions. It is therefore essential that colours should be matched and assessed under the same lighting conditions that the print will be displayed.

The Sericol/Cherlyn Agile Radiant Colour Matching Cabinets offer standardised lighting conditions by using high quality illumination within a neutral grey coloured surround.

Two versions are available, three and five light source, both of which are designed to meet international standards for optimum viewing conditions.

Key Features

- The colour inside the cabinet is a neutral grey to meet the requirement on BS950.
- Robust construction: All metal fabrication resulting in strength with an assembled weight of only 9kg.
- Easy assembly: Cabinets are supplied 'flat packed' for easy transport, and can be assembled with just a screwdriver.
- Variety of Lamps: Cabinets can be supplied with a variety of lamps offering different light combinations. Customised light selections are available to order.
- Designed to meet international standards for optimum viewing conditions: **BS950/ISO3664:2000/CIE**.

Alternative Light Combinations

Store Light (TL84)

Specified by many major stores as their 'Point of Purchase' lighting.

Daylight 1 (D65)

North Sky Daylight conforming to international standards for colour assessment.

Daylight 2 (D50)

Artificial Daylight for colour matching print to photographs – conforming to ISO 3664 : 2000.

Home Light (Tungsten)

Tungsten Filament lighting as required by BS950 as a test for metamerism and appraisal under domestic lighting.

Ultra-Violet (Blacklight)

Ultra-violet 'Black' lighting, with filters to eliminate visible radiation, to facilitate recognition of fluorescents.

Specifications

EQR94 Sericol/Cherlyn Agile Radiant Controlled Light 5

EQR95 Sericol/Cherlyn Agile Radiant Controlled Light 3
