

FlashFix & T-Fix Extra Spray Adhesives

FlashFix and T-Fix Extra are Aerosol Adhesives for spraying on to non-vacuum printing beds to hold garments or fabric pieces firmly in position.

Spraying

The aerosols have large, easy-to-use buttons producing wide, even spray patterns for uniform application. Best results are obtained by applying an even coating, spraying from approximately 30 cms and allowing for solvent evaporation prior to positioning the fabric. Time will vary depending on volume of adhesive applied.

Standard Packing

IA499 FlashFix Spray Adhesive
IA510 T-Fix Extra Spray Adhesive

Available in 640 ml. nett aerosol containers.

Safety and Handling

FlashFix and T-Fix Extra Spray Adhesives:

- Are supplied in pressurised containers.
- Are flammable. Do not expose to temperatures exceeding 50°C.
- Must be protected from direct sunlight.

Do not puncture or incinerate cans, even after use.

Do not spray on a naked flame or incandescent material.

Do not breathe spray. Use only in well ventilated areas.

Comprehensive information on the safety and handling of FlashFix and T-Fix Extra spray adhesives is given in the appropriate Fujifilm Sericol Safety Data Sheet, available on request.

Environmental Information

FlashFix and T-Fix Extra:

- Do not contain ozone depleting chemicals as described in the Montreal Convention.

Main Characteristics

Product

FlashFix
T-Fix Extra

Properties

FlashFix: Low odour high-tack. Heat-resistant, fast drying and long-lasting adhesive. Coarse atomised spray pattern maximises control and minimises overspray.

T-Fix Extra: Low odour, very fast drying. All-purpose adhesive. Long lasting, high-tack surface. Medium atomised spray pattern.

Application

FlashFix: All types and weights of fabric. Specifically designed to meet the demands of flash curing.

T-Fix Extra: Suitable for lightweight and brushback fabrics.

Cleaning

FlashFix & T-Fix Extra: Can be easily cleaned up with ZT639 Screen Wash Universal ZS640 tursub or Actisol Superjet Screen Spray.

Other Uses

FlashFix & T-Fix Extra: Mounting showcards, prints and photographs. As a general adhesive for card, many papers and most plastics.

IMPORTANT:

Users should satisfy themselves that the adhesive is compatible with specific textiles before commencing production runs. As with all aerosols these products should be used with reasonable care (see section 'Safety and Handling').

The information and recommendations contained in this Product Information sheet, as well as technical advice otherwise given by representatives of our Company, whether verbally or in writing, are based on our present knowledge and believed to be accurate. However, no guarantee regarding their accuracy is given as we cannot cover or anticipate every possible application of our products and because manufacturing methods, printing stocks and other materials vary. For the same reason our products are sold without warranty and on condition that users shall make their own tests to satisfy themselves that they will meet fully their particular requirements. Our policy of continuous product improvement might make some of the information contained in this Product Information sheet out of date and users are requested to ensure that they follow current recommendations.
